DISEGNI TECNICI + FINITURE

SLIDING SYSTEM

Il sistema scorrevole è composto da un binario regolabile a una o più vie, contenuto in una trave d'alluminio con fissaggio a parete o a soffitto, incassata nel cartongesso o sospesa.

Le ante, prodotte nella versione mono lastra **Aladin Slide Mono**, **Sherazade Slide** o doppia lastra **Aladin Slide Duo**, con telaio d'alluminio disponibile in quattro finiture, vengono appese al binario per mezzo di carrelli con scorrimento fluido e silenzioso.

La chiusura delle ante, grazie a dei rallentatori posti a fine corsa, risulta essere molto dolce e precisa.

Le ante possono anche essere bloccate e utilizzate come pannellature divisorie fisse; è inoltre possibile montare maniglie con o senza serratura e profili di battuta di diverse tipologie.

Il sistema non ha guida a terra.

The sliding system is composed by an adjustable one-way or more-ways rail, contained in an aluminium beam, fixed whether on the wall or on the ceiling, recessed into the drywall or hanging. Beam and rail are supplied custom-cut.

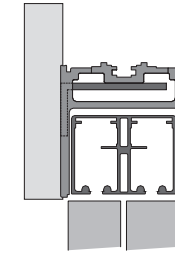

The doors, produced in the single panel version **Aladin Slide Mono**, **Sherazade Slide** or double panel **Aladin Slide Duo**, with aluminium frame available in four different aluminium finishing, are hanged on the rail thanks to carriages with fluid and silent sliding.

The closing of the doors, thanks to a soft motion placed at the end of the rail, is very soft and precise. Doors can be also blocked and used as fixed wall partitions. It is possible to assemble different handles with or without lock and different kinds of door-strikers profiles.

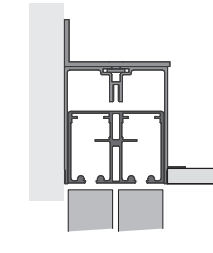

The system has no guiding tracks.

ALADIN SLIDE MONO

I pannelli **Aladin Slide Mono** hanno un vetro applicato su un lato del telaio, in modo da avere una faccia con superficie planare e l'altra con superficie arretrata rispetto alla cornice perimetrale d'alluminio.

Il vetro, disponibile in una vastissima gamma di finiture, può essere monolitico temperato 6 mm oppure stratificato 3 + 3 mm.

Tutti i vetri sono certificati secondo le normative di sicurezza ANSI Z97.1 e UNI EN12150.

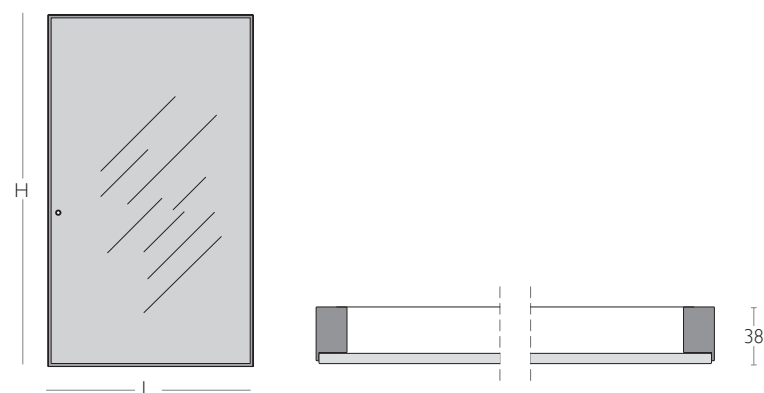

Sono disponibili anche pannelli in gres o in diverse finiture.

The **Aladin Slide Mono** panels have a glass applied on one side of the frame so that one side has a flush surface and the other is rebated from the aluminium frame.

The glass, available in a wide range of finishes, can be monolithic tempered 6 mm in a single piece or laminated 3 + 3 mm.

The glass is certified according to the safety regulation ANSI Z97.1 and UNI EN12150.

Panels in stoneware with different finishes are available too.

ALADIN POCKET MONO

Le ante **Aladin Pocket Mono**, prodotte su misura e perfettamente integrabili nei più diffusi sistemi di porte scorrevoli a scomparsa senza stipite, quali Scrigno Essential® scorrevole ed Eclisse® Syntesis Line, hanno un vetro applicato su un lato del telaio, in modo da avere una faccia con superficie planare e l'altra con superficie arretrata rispetto alla cornice perimetrale d'alluminio. Il vetro, disponibile in una vastissima gamma di finiture, può essere monolitico temperato 6 mm oppure stratificato 3 + 3 mm. Tutti i vetri sono certificati secondo le normative di sicurezza ANSI Z97.1 e UNI EN12150. Sono disponibili anche pannelli in gres con diverse finiture. Le due versioni, ad anta singola e ad anta doppia, possono essere fornite con o senza serratura. A richiesta vengono forniti anche i controtelai per cartongesso e intonaco.

The **Aladin Pocket Mono** doors are custom-made, can be integrated into the most common systems of frameless sliding pocket doors such as Scrigno Essential® sliding and Eclisse® Syntesis Line and have glass applied on one side of the frame so that one side has a flush surface and the other is rebated from the aluminium frame. The glass, available in a wide range of finishes, can be monolithic tempered 6 mm as a single piece or laminated 3 + 3 mm. The glass is certified according to the safety regulation ANSI Z97.1 and UNI EN12150. Panels in stoneware with different finishes are available too. The two versions, with single or double door, can be supplied with or without the lock. Subframes for plasterboard or brick walls can be provided on demand.

ALADIN POCKET FRAME MONO

Le ante **Aladin Pocket Frame Mono**, prodotte su misura e perfettamente integrabili nei più diffusi sistemi di porte scorrevoli a scomparsa, hanno un vetro applicato su un lato del telaio, in modo da avere una faccia con superficie planare e l'altra con superficie arretrata rispetto alla cornice perimetrale d'alluminio. Il vetro, disponibile in una vastissima gamma di finiture, può essere monolitico temperato 6 mm oppure stratificato 3 + 3 mm.

Tutti i vetri sono certificati secondo le normative di sicurezza ANSI Z97.1 e UNI EN 12150. Sono disponibili anche pannelli in gres con diverse finiture.

La porta viene fornita completa di stipite telescopico in alluminio, con dimensioni standard da 90 a 130 mm, nella stessa finitura del telaio dell'anta.

Per dimensioni maggiori devono essere considerati gli extra prezzi indicati. Le due versioni, ad anta singola e ad anta doppia, possono essere fornite con o senza serratura.

A richiesta vengono forniti anche i controtelai per cartongesso e intonaco.

ALADIN SWING PLAIN MONO

Aladin Swing Plain Mono è una porta a battente raso muro prodotta su misura, con cerniere a perno regolabili. Un vetro è applicato su un lato di un telaio in alluminio, disponibile in quattro finiture, in modo da avere una faccia con superficie planare e l'altra con superficie ametrata rispetto alla cornice perimetrale. Il vetro può essere monolitico temperato 6 mm oppure stratificato 3 + 3 mm temperato, disponibile in una vastissima gamma di finiture. Tutti i vetri sono certificati secondo le normative di sicurezza ANSI Z97.1 e UNI EN12150. Sono disponibili anche pannelli in gres con diverse finiture. È possibile montare diversi tipi di serrature e scegliere tra maniglia o pomolo, nella stessa finitura del telaio. Il controtelaio in alluminio decapato, invisibile quando la porta è chiusa, è disponibile sia per pareti cementizie sia in cartongesso e può essere verniciato direttamente con la pitturazione delle pareti. Disponibile anche nella versione filo soffitto.

Aladin Swing Plain Mono is a custom-made swing door with concealed frame and adjustable pivot hinges. A glass is applied on one side of an aluminium frame, available in four different finishes, so as to have a face with a flush surface, and another surface rebated from the perimeter aluminium frame. The glass can be monolithic tempered 6 mm in a single piece or tempered laminated 3 + 3 mm available in a wide range of different finishes. The glass is certified according to the safety regulation ANSI Z97.1 and UNI EN12150. Panels in stoneware with different finishes are available, too. It is possible to assemble different kind of locks and choose between handle and knob, which are provided in the same finishes as the frame. The pickled aluminium subframe, invisible when the door is closed, is available for both cement walls and plasterboard and can be varnished during the painting of the walls. Available also in the version with frame flush with the ceiling.

**ALADIN SWING
FRAME MONO**

Aladin Swing Frame Mono è una porta a battente prodotta su misura, con stipite telescopico e cerniere a perno regolabili. Un vetro è applicato su un lato di un telaio, in modo da avere una faccia con superficie planare e l'altra con superficie arretrata rispetto alla cornice perimetrale d'alluminio. Il vetro può essere monolitico temperato 6 mm oppure stratificato 3 + 3 mm temperato, disponibile in una vastissima gamma di finiture. Tutti i vetri sono certificati secondo le normative di sicurezza ANSI Z97.1 e UNI EN 12150. Sono disponibili anche pannelli in gres con diverse finiture. È possibile montare diversi tipi di serratura e scegliere tra maniglia o pomolo che, come lo stipite, sono forniti nella stessa finitura del telaio. Disponibile anche nella versione filo soffitto.

Aladin Swing Frame Mono is a custom-made swing door with telescopic jamb and adjustable pivot hinges. A glass is applied on one side of the frame, so as to have a face with a flush surface, whilst the other surface is rebated from the perimeter aluminium frame. The glass can be monolithic tempered 6 mm in a single piece or tempered laminated 3 + 3 mm, available in a wide range of finishes. The glass is certified according to the safety regulation ANSI Z97.1 and UNI EN 12150. Panels in stoneware with different finishes are available, too. It is possible to assemble different kind of locks and choose between handle and knob which are provided, like the jamb, in the same finishes as the frame. Available also in the version with frame flush with the ceiling.

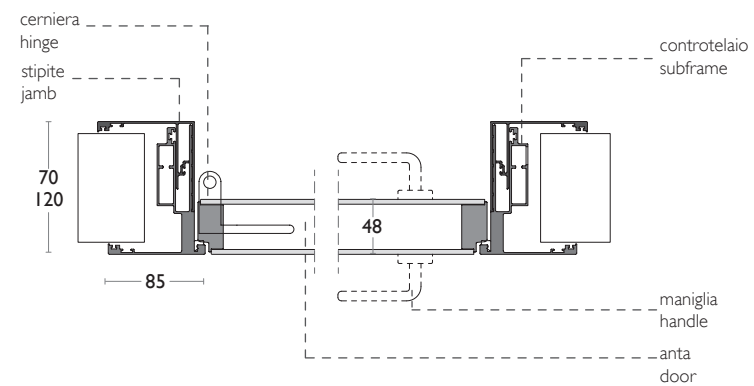

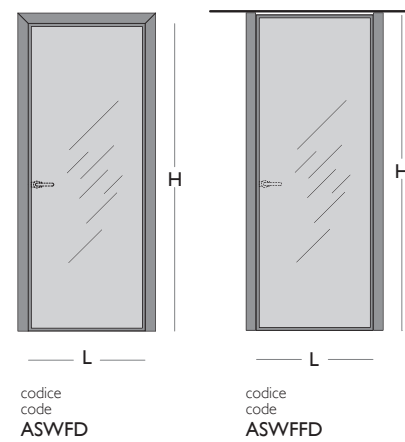

**IPOTESI PROGETTUALI /
PROJECT CONFIGURATIONS**

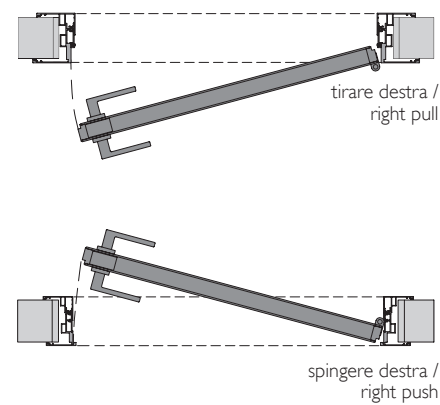

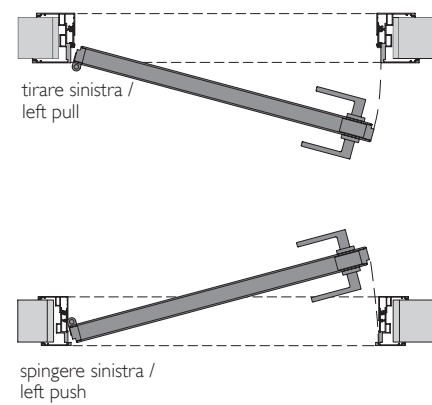

ALADIN SWING FRAME DUO

Aladin Swing Frame Duo è una porta a battente prodotta su misura, con stipite telescopico e cerniere a perno regolabili. Dei vetri temperati spessore 4 mm sono applicati su entrambe le facce di un telaio in alluminio, disponibile in quattro finiture, in modo da formare un volume con una camera d'aria interna. I vetri, disponibili in un'ampia gamma di finiture, sono certificati secondo le normative di sicurezza ANSI Z97.1 e UNI EN12150. Sono disponibili anche pannelli in gres o in legno, con diverse finiture ed essenze. È possibile montare diversi tipi di serratura e scegliere tra maniglia o pomolo che, come lo stipite, sono forniti nella stessa finitura del telaio. Disponibile anche nella versione filo soffitto.

Aladin Swing Frame Duo is a custom made swing door with telescopic jamb and adjustable pivot hinges. Tempered glass 4 mm thick is applied on both faces of an aluminium frame, available in four different finishes so as to form a volume with an internal air chamber. The glass is available in a wide range of finishes and it is certified according to the safety regulation ANSI Z97.1 and UNI EN12150. Panels in stoneware and in wood with different finishes and essences are available too. It is possible to assemble different kind of locks and choose between handle and knob which are provided, like the jamb, in the same finishes as the frame. Available also in the version with frame flush with the ceiling.

ALADIN PIVOT PLAIN MONO

Aladin Pivot Plain Mono è una porta a bilico raso muro prodotta su misura, con cerniere a perno regolabili. Un vetro è applicato su un lato di un telaio, in modo da avere una faccia con superficie planare e l'altra con superficie arretrata rispetto alla cornice perimetrale d'alluminio. Il vetro può essere monolitico temperato 6 mm oppure stratificato 3 + 3 mm, disponibile in una vastissima gamma di finiture. I vetri sono certificati secondo le normative di sicurezza ANSI Z97.1 e UNI EN12150. Sono disponibili anche pannelli in gres con diverse finiture. È possibile montare diversi tipi di serrature e scegliere tra maniglia o pomolo nella stessa finitura del telaio. Il controtelaio in alluminio decapato, invisibile quando la porta è chiusa, è disponibile sia per pareti cementizie sia in cartongesso e può essere verniciato direttamente con la pitturazione delle pareti.

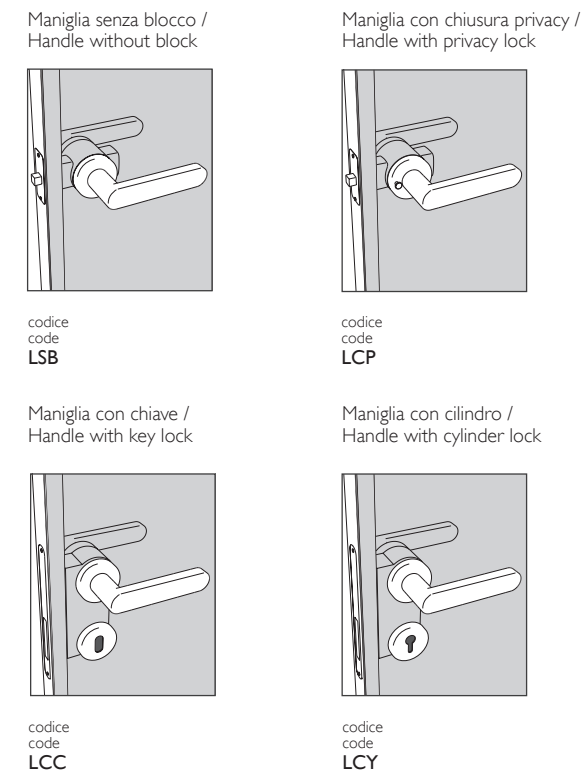

Aladin Pivot Plain Mono is a custom-made pivot door with a concealed frame and with adjustable pivot hinges. A glass is applied on one side of the frame, so as to have a face with a flush surface, whilst the other surface is rebated from the perimeter aluminium frame. The glass can be monolithic tempered 6 mm in a single piece or laminated 3 + 3 mm, available in a wide range of finishes. The glass is certified according to the safety regulation ANSI Z97.1 and UNI EN12150. Panels in stoneware with different finishes are available, too. It is possible to assemble different locks and choose either between handle and knob in the finishes as the frame. The pickled aluminium subframe, invisible when the door is closed, is available for both cement walls and plasterboard and can be varnished during the painting of the walls.

SHERAZADE SWING PLAIN

Sherazade Swing Plain è una porta a battente prodotta su misura, che si distingue per la grande pulizia formale e la cura dei dettagli, in cui il telaio dell'anta è a raso muro. Un vetro temperato monolitico da 6 mm, o stratificato da 3+3 mm, è inserito tramite una guarnizione nel telaio d'alluminio, fornito in quattro diverse finiture.

I vetri, disponibili in una vastissima gamma di finiture, sono certificati secondo le normative di sicurezza ANSI Z97.1 e UNI ENI 2150.

Sono disponibili anche pannelli in gres o in legno, con diverse finiture ed essenze. È possibile montare tre tipi di serratura (senza blocco, con cilindro, con nottolino) e scegliere tra maniglia o pomolo, che sono forniti nella stessa finitura del telaio. Le cerniere sono a perno regolabili.

Il controtelaio in alluminio decapeato, invisibile quando la porta è chiusa, è disponibile sia per pareti cementizie sia in cartongesso e può essere verniciato direttamente con la pitturazione delle pareti.

Sherazade Swing Plain is a custom made swing door with a concealed frame, which stands out for its clean lines and attention to detail, whose door panel fits flush to the wall.

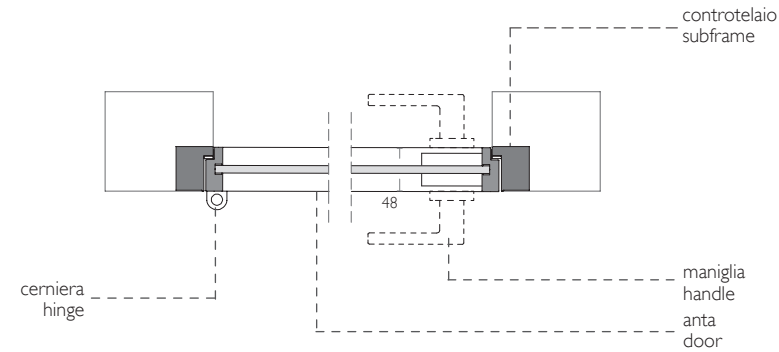

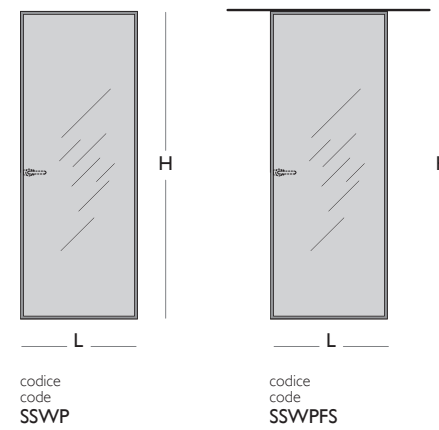

The monolithic 6 mm, or laminated 3+3 mm, thick tempered glass is inserted by means of a seal in the aluminium frame, which is supplied in four different finishes.

The glass is available in a wide range of finishes and it is certified according to the safety regulations ANSI Z97.1 and UNI ENI 2150.

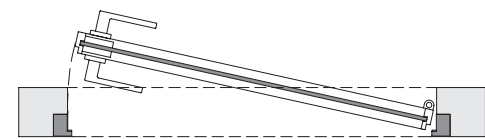

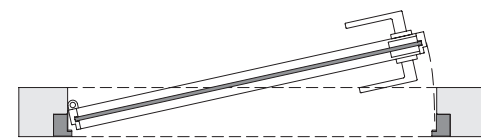

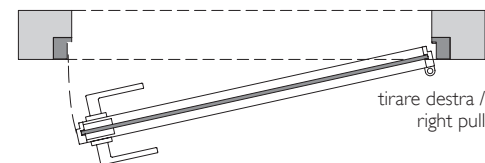

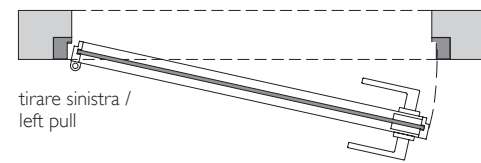

Panels in stoneware and in wood with different finishes and essences are available too.

It is possible to assemble three kinds of lock (without block, with cylinder, with revolving plug) and choose between handle or knob and they are supplied in the same finish of the frame.

The hinges are with adjustable pivot. The pickled aluminium subframe, invisible when the door is closed, is available for both cement and plasterboard walls and it can be varnished during the painting of the walls.
