TRIBÙ

PIERGIORGIO CAZZANIGA
CTR, VIS À VIS

'When Tribù contacted me, I immediately had the feeling they were giving me a lot of freedom to express myself. In all my designs I start from an intense emotion. There was always a lot of enthusiasm and dedication to the development of my ideas at Tribù. I experience them as a company that wants to produce rational objects, but always with a sense of poetry.'

STUDIO SEGERS
KOS, MOOD, NATAL

'The fruitful collaboration with Tribù since more than 20 years, demonstrates our mutual vision on design. To us, design is more than beautiful shapes, more than trendy styling, it is a continuous search for the essence of products. Good products are the result of the right combination of creativity and technical know-how.'

VINCENT VAN DUYSEN
NEUTRA

'Tribù's style fits well with what I'm working towards in my architectural projects. No spectacular loud furniture, but a lasting, timeless line with an eye for detail. We share a love of pure forms and flowing lines and dare to go a step further technologically.'

**LIEVORE ALTHERR MOLINA
BRANCH**

'Working together with Tribù was a very positive experience for us. First of all because of their belief in our designs, secondly because of the way the project was handled with a lot of involvement, preciseness and seriousness, which was very stimulating.'

MONICA ARMANI
TOSCA, REGISTA, NOMAD,
PAVILION DAYBED

'Tribù asked me to add a female touch to the collection. There are a lot of things in my work that we have in common, a sense for materials, colours and textures, the attention for the smallest detail and a passion for research and experimenting, keeping precisely in mind how a Tribù product should look like.'

MERCKX & MAES
ILLUM

'Our approach is a constant search for the perfect balance between proportions, materials and technology. We always aim for pared down forms with strong lines, in combination with natural materials and attention to detail. We found the same kind of philosophy at Tribù. They have a strong sense for tradition and craftsmanship, without losing the functional aspect.'

YABU PUSHELBERG
NODI

'Tribù has a critical eye towards composition of balance and form – which stems from a rigorousness to get to the details, as well as from a drive and passion to come up with the best piece of furniture. This exactitude leads to the greatest realizations. We, as designers, also appreciate the minimalist approach to materiality that Tribù takes, and with that, together we have created products that have inherent soul and personality that is not easily forgotten.'

The rugged basalt columns of the Giant's Causeway in Northern Ireland were the inspiration for the Hexagon side table. It comes in a variety of heights and sizes, like the basalt columns, which makes a strong statement when grouped together. The sturdiness and pure symmetry of honeycomb also influenced these teak side tables. Hand crafted glazed lava stone, each piece unique and available in a selection of 2 colours, adds to the bold, natural look.
